

Artist Name: R.C. FISHER

Ever since I can remember I have been creating art, making art, re-arranging art, seeing art, and feeling art. With influences from Salvador Dali, Picasso, Richard Estes, Leighton, M.C. Escher + many more, I have always been drawn to Realism and the patience necessary to make some of these great artist's pieces.

Most of my work within the past 10 years has been architecture type perspective from photos that I have taken, unfortunately, due to wreckless, carefree living, hundreds of my paintings have been lost in unpaid storage facilities.

In the process of drawing, painting, + creating for the past 40 years, each year I get a little more adept and my vision becomes clearer which will hopefully lead to sharper, cleaner images that touch the soul.
