

Artist Name: _____

people who live with/as disabled are on fringes of every society. the people in this painting have visible disability (spray painting w/ no hands, or using squeegee to put up "wallpaper") or unseen disability, yet are actively working in the community. the "SAVE OUR WORLD" & the "IF NOT FOR US, THEN FOR WHOM?" are challenges to society members. let us see the unseen and not see the seen, but let's work together to save our world for the children. notice, the painting only has children in it. only the face of the little girl is visible (because see can't hear) and the rest are not visible facially because two of their disability is noticeable (no hands) and the third, the smallest, is slightly bodily deformed. what would our world look like if they are allowed to actively participate in the world.
