

Artist Statement: 27th Annual Exhibition of Artists in Michigan Prisons

Artist Name: Miguelito

One of the reasons I create art is because it's a way to bring hope, worth, and love into people's lives. Even though we are all different, we all go through similar trials and tribulations in life. Sometimes words are not enough to create hope, it takes silence, which leads to being aware of our surroundings. And in that very moment creation answers our questions as it expresses that hope, worth and love has always existed beyond the flesh. In "synergism", this is what's being expressed, that even though everything around us can become ashes, beauty can still rise.
