

Artist Statement: 27th Annual Exhibition of Artists in Michigan Prisons

Artist Name: Ringle

If You have followed me as an artist you all know my situation. Misunderstood Breed is me in a nut shell. So, so many times people paint the wrong picture on Pit Bull's and Prisoners. Not every prisoner says they're innocent thats just the books and T.V, and not every Pit Bull is mean and will attack you. There is a lot more intentional thoughts and meanings behind this, but I'll leave some thoughts and feelings for the viewer. In general all people look at prisoners and Pit Bulls in a bad way. The truth of the matter is that all prisoners are not bad, and some might even be innocent. Just like all Pit Bulls are not bad dogs, and might even be loving and kind dogs that would never hurt anyone. I just want the DNA evidence and fingerprints from my case put back in the codis system and one day, If not the day its put back in there. The world will know the truth. I would like to thank everyone that has written me and made statements about my art in the past. It really means a lot to me. Thank You !!
