The paintings I create are from memories, music snap ideas I think or feel others would like and appreciate. Such as the black piano I think of the huge 3 bushes we had in our front yard, in the summer the windows would be open and the wind would blow the smell in to our house it smelled great, my grandma loved them and her daddy. I want to bring beauty into the lives and homes of others, I enjoy creating these works and I feel real when I is finished. I'm an individual who shows emotion and blending and creating these allows me to be me and flow, in a way we really aren't capable to in prison (so far) I strive to obtain the the deep, Real Me, Our love is a heart open to many feelings and thoughts others have everyday with the Detroit God. I create for all people I want a person or people to feel the paintings with remember when, I want these paintings to flow in this world grow and be enjoyed by all generations for generations. I want them to feel, see what I do, when I paint. It's not about popularity, money, status it's about creating peace in your heart mind, soul, spirit. Thank you for taking the time to review my work
