Blessed Assurance, Fresh Out the Oven

For me Art is a lifestyle. It helps me
Cope with life, Emotionally, spiritually and
Financially. It helps me Connect with others
and create camaraderie when ~~learning~~^{learning}
and teaching. Same as when I play music
in art I try to be loose and free while retaining
the technical professional finish. The fun
for me is the craft and the ability to
be flexible in different media + styles and
still retain a technical edge. The idea
that I can share this with others, in teaching,
and producing my own work is a blessing
and I can only hope + pray that many
within future generations can and will
~~also~~ have the opportunities, drive, and ambition
to share my Experience
and have fun with it !!
