Wake Me

I'm native my tribe is located in Okla. This painting "Wake Me" to me represents times when I felt Alone, trapped and Cold (the world felt cold) and I just wanted someone to hear my screams and wake me from the Nightmare I was living. His hair is a bird that represents the ^{my} free spirit that is trapped in this bubble waiting to be freed. A prison within a prison is the nightmare I wait to be freed from, -Wake Me-
