

Artist Statement: 27th Annual Exhibition of Artists in Michigan Prisons

Artist Name: Sterling Jones "Spider"

First and foremost Thank you for your time, when I discovered my little talent for the arts, I didn't think I would have push myself to learn more about this talent each time developing new skills unlocking the creative mind, painting and/or drawing whatever whenever I could, still being amazed at the different colors that make such vibrant pieces of art in so ~~many~~ many forms

Hopefully when people see ~~work~~ my works they see the more I become comfortable with this talent they see me evolve with every piece, once again Thank You not only for myself but also for the other artist that need to be seen and heard.
