

Artist Name: Abraon Shakir

I am a 51 year old "juvenile lifer" that will be returning to society in the next 7 months after 35 years. Truly a blessing. I draw to challenge myself, for personal rewards, to find peace, secure my future, and most importantly ~ because I truly LOVE it.

I love graphite (black & white) portraiture style drawings. I believe nothing looks better captured correctly in this medium. At my core I am a tattoo artist who will deliver this portraiture style art in my work once I am released.

The piece I submitted I'm hoping that it captured and translate to those who view it my visualizations of my future and yearnings to execute the ideas & dreams I have for myself. However, in the end ~ I just hope that some enjoy it. That will be my reward. Thank you for this opportunity allowing me to share my work and have a voice. Highly grateful

Sincerely,  
Abraon Shakir
