

Artist Name: Twitch

I Learned How to Crochet at a young age, 9 years old to be exact. I Found that Crocheting was very relaxing and stress free for me. With me having Tourette Syndrome and ADHD, being relaxed and stress free helped reduce my tics. Crocheting also helped me train my Mind to Focus through the ADHD. For those reasons I grew to really enjoy Crocheting. I still Crochet today and it still helps my ADHD and Tourette Syndrome. I Chose to make the Minions and Evil Minion Sets to challenge myself and see if I could Successfully make Stuffed Items (Amigurumi). I am very happy with how they turned out being my First attempt at Amigurumi. I hope you enjoy them as much as I enjoyed making them. One thing I live by is, Don't let a disability define you or hold you back From trying Something. You might surprise yourself and discover a new hobby your good at.
