Hanging Out

for me, creating Art is a way
to both express myself, and to
keep myself busy. I don't like
down time or being idle, and
art is a way to counter that.

Mixing colors, styles, and mediums
is always fun. We may not like
what we come up with; however, the
journey is fascinating. When we create
from the heart we are learning
a little more about ourselves, and
as long as we are learning then
we are building. And, building for
a better and brighter future is what
it is all about for me.

Thank you
