Walking Line

I am submitting 3 crocheted projects for consideration for this year's exhibition.

The largest item is "Big 10 Stadium Bag". I have been making hats and scarves for several years that included logos of college, high school, and National teams. As I planned this project, my idea was to include all of the Big Ten logos (14) in one project.

The "Walking Line" hat & scarf set were inspired by a quote from Swiss painter, Paul Klee (1911), "A drawing is simply a line going for a walk." I tried to make it look like the words were wandering along a hiking trail.

The "Princess Elsa" hat & scarf set were designed for a friend's granddaughter whose current craze is her love for princesses. She really loved her set, so I decided to recreate it for the exhibition.
