

Artist Statement: 27th Annual Exhibition of Artists in Michigan Prisons

Artist Name: Darius M. White

I chose "Two states one mind" because it depicts twenty plus years of my thirty-three (33) with a loving joyous (but yet) a relationship that carried a heavy load. Even though we became one mind over the years, the two different styles of life began to take over. The reds, oranges and yellow hues showcase the many ups and downs. The soft bright minute line between the two showcase that there is never a definite opportunity for resolution. Anything can be mended with patience and love as long as there is a will.

I love to create it gives me that unspoken voice that would not be heard if not for this special art exhibit. I will continue to create what is heavy on my heart as long as my audience hears my messages both privately and socially. Thank you for the feedback

Sincerely,

Darius\*
