Cupcake 3.0

I have rendered a variety of differing art styles this year. I enjoy testing my abilities as an artist and exploring differing mediums. I hope you enjoy these works and my view of the use of these mediums. I do not know which works will be selected. "Mocking Me" I rendered using pointilism (with limited ink pen colors) of a mocking bird. "Mayan Tribal" I rendered using pointilism; I wanted to do something different. I used acrylic paint to render "ART-METIC", which is more of a modern abstract piece. I like this piece because it is complex - yet simple. I used acrylic paint to render "Yellow Warbler"; I always enjoy to do nature pieces. I used acrylic paint to render "Cupcake 3.0"; this is one of my favorite pieces.

I am new to acrylic painting and these are around my 5, 6, and 7th ones I have ever rendered. I enjoy painting w/ oil paints; however, we are not allowed to use them within the M.D.O.C. ~~However, I would like to see that we are allowed to use water based paint. So make next year!~~ Thank-you for your interest in us Prisoners and your donations to the University of Michigan; SO BLUE! Thank-you for any past purchases of my art works and THANK-YOU for any purchases today. You have continued to fuel my art works and my passions; you have funded my artworks for another year.
