Take A Look At Yourself In The Mirror

I Was Born Into A Family of (11) children (Including Me), Its (9) Boys and (2) Girls. I was Born into This Unpredictable World. My Father and my two brothers Were the Artists of the Family. I grew up Watching one of my two Brother's draw, and I learned From his Skills that he brought to his drawing's. From: 2006-2019, I became alot Better at drawing, but I've humbled myself awhole lot because I know their are alot of Artist's Out there that has Way More talent than Me. I create Art because I love to draw, and I love seeing the Out-Come of my Art Work, When its done. One of the things I get Out of drawing is... seeing the faces of the people When they look at my Art Work, and hoping that I've

touched Someones heart. I'm exhibiting two pieces. One IS: The Way We See Ourselves When We look in the Mirror. So, the question I Ask is, "What do you see When you look in the Mirror at yourself? The Other Art piece IS: How, or What are We teaching Our Children as they become Adults in Our Society, and What path are they going down? We as Parents, Grand parents, Brothers, Sister's, Aunts, and Uncle's, need to Involved in each other's Life's more. What We do, and What We Say around Our children determine the direction they will go. Like the Saying goes, If I Can change (1) person Life Out of (10) people Than I've done my job. I Want to Thank my Mom and Dad for raising me up the right way. (I) just chose a different path. Now, I Want to Change Lives, and that's Why I draw. Thank You For Your Time!

Sincerely,
X McBrowning
