

Artist Name: Ronny Schmitt

I have always had an artistic talent and have been building real race cars for many years. Being here has stopped my building of real cars and with too much time on my hands I decided to try building this car. The body separates from the chassis so you can look at all the details. I tried being as detail oriented as possible with what I had to work with. I've gotten over 100 hours of time into this project. I was pleased with how it turned out and will do other projects of this type.
