

Artist Statement 26th Annual Exhibition of Art by Michigan Prisoners

Artist Name: Rodney Burger 499101

My arts inspiration originates from within the heart. I create original designs which are influenced by my life's most memorable moments. Whether good or bad, it is from the loudest memories that my productions are fueled.

Art is the language in which I am most fluent. I love the craft because it allows for me to communicate with the world in such a way that is ambiguous to the enthusiasts and significant to myself.

Every interpretation is equally relevant because each is unique to the viewer and nobody else.

A big thanks to genetics, circumstance, and all of you. Yours truly, Rodney Burger
